Dear Sir/Madam

Waikato Regional Council submission to Proposed Plan Change 34 Flood Hazards

Waikato Regional Council made a submission to Proposed Plan Change 34 Flood Hazards, providing support for the Plan Change as a whole, noting two areas of concern around hazardous substances, and the treatment of buildings and activities. Waikato Regional Council worked closely

After reviewing the Section 42A planning report I am satisfied that Waikato Regional Council's submission points have been addressed, notably through the commentary provided on Issue 7 Activities/Buildings (pages 31-32) and amendments proposed in response to Issue 8 Hazardous Substances (pages 33-34). On this basis the draft Amended Plan Change provisions included as Appendix D are supported.

I request that this letter is tabled at the hearing on 23 and 24 October 2018, confirming support for the Proposed Plan Change provisions as presented in the Section 42A planning report.

Yours sincerely

A handwritten signature in black ink that reads "A. Tester".
