Waikato Local Authority Shared Services Limited

Introduction

This Statement of Intent is a public declaration of the activities and intentions of the Council Controlled Organisation, Waikato Local Authority Shared Services Limited (WLASS). The statement outlines the proposed work plan for 2017/18 and the Directors' accountabilities to the shareholders for corporate performance, as is intended by Schedule 8 of the Local Government Act 2002.

Objectives of WLASS

Local Authority Shared Services Limited was incorporated under the Companies Act 1993 on the 13th day of December 2005, and changed its name to WAIKATO LOCAL AUTHORITY SHARED SERVICES LIMITED (WLASS) on the 4th day of April 2016. WLASS is owned by the 12 Waikato local authorities, with each shareholder owning an equal number of shares and having an equal say in its development. WLASS provides a legal entity, representative of all the shareholding councils, which can enter into contracts and agreements with external suppliers and provide value to the shareholders by reducing costs. WLASS contracts are available to be joined by any shareholder that so chooses.

Much of the work of WLASS is undertaken by Working Parties or Advisory Groups made up of staff representatives from the shareholding councils, with expertise and interest in particular services. The WLASS CEO provides facilitation and co-ordination of the Working Parties, and is an ex officio member of the Advisory Groups.

As part of providing a mechanism for supporting shared services and collaborative opportunities within the region, WLASS also provides support to the Waikato Mayoral Forum and its work streams.

The objectives of WLASS are to:

- enable the Waikato councils to collectively be more effective as a region on the national stage
- contribute to building central government's confidence in the Waikato region, and to encourage central government investment
- achieve effectiveness and efficiency gains
- reduce duplication of effort and eliminate waste through repetition
- make it easier for customers to engage with councils in the Waikato region
- promote and contribute to the development of best practice
- promote business transformation to improve customers' experiences.

Nature and Scope of Current Activities

There are currently nine major initiatives operating under the WLASS umbrella, plus a support role for the collaborative work streams of the Waikato Mayoral Forum.

- 1 Shared Valuation Data Service (SVDS).** This system provides timely and accurate valuation data to the 10 member Councils (Waikato Regional, Hamilton City, Hauraki, Matamata Piako, Rotorua, South Waikato, Thames Coromandel, Waikato, Waipa and Waitomo District Councils). The SVDS has become the accepted valuation database for the region. Data sales significantly reduce costs to the participating councils.
- 2 Road Asset Technical Accord (RATA).** RATA was initially established as a centre of excellence for road asset planning in 2014, as a work stream under the Mayoral Forum. The activity transferred to WLASS on 1 July 2016. The aim of RATA is to achieve best practice in road asset management by improving capability, capacity and outcomes through effective collaboration. By leading asset management best practice, RATA delivers better decision making through the effective collection and use of good quality data, and the implementation of good practice processes and systems for data collection, analysis and management.

Waipa District Council currently acts as the host council for RATA, providing accommodation and overheads (which are fully recovered from the participating councils), and managing the employment agreements/relationships with the three staff members. This activity is fully funded by the nine participating councils (Hamilton City, Hauraki, Matamata Piako, Otorohanga, South Waikato, Thames Coromandel, Waikato, Waipa and Waitomo District Councils, supported by the NZ Transport Agency) and operates as a separate cost centre.

- 3 Waikato Regional Transportation Model (WRTM).** This model became fully operational in February 2010. It provides accurate information to Councils and to external users (for a charge) for their transport modelling requirements. The WRTM is the only recognised strategic transport modelling resource in the Waikato Region, and is jointly funded by the NZ Transport Agency. WRTM is making a significant contribution to strategic planning of land use and infrastructure within the region, and has been involved in regionally and nationally significant investigations including: the Waikato Expressway Network Plan; the Waikato Regional Land Transport Strategy and Regional Policy Statement; and transport impact assessment in relation to the development of Ruakura. This activity is fully funded by the seven participating councils (Waikato Regional, Hamilton City, Matamata Piako, Taupo, Thames Coromandel, Waikato, and Waipa District Councils, supported by the NZ Transport Agency), and operates as a separate cost centre. The WRTM has been managed by RATA since 1 July 2016.
- 4 Waikato Building Consent Group (WBCG).** The WBCG was initially set up by five Waikato local authorities in 2004 to foster co-operation, collaboration and consistency in building functions, legislative interpretation and process documentation across the partnering councils. The Group now comprises eight councils (Hamilton City, Hauraki, Matamata Piako, Otorohanga, Thames Coromandel, Waikato, Waipa and Waitomo Districts). The WBCG has developed a common quality assurance system with associated supporting documentation and media that meet the legislative requirements of the Building Act 2004 and the Building (Accreditation of Building Consent Authorities) Regulations 2006. These regulations cover all aspects of the operational management and compliance of a Building Consent Authority (BCA).

Waikato District Council currently acts as the host council for the WBCG, providing accommodation and overheads (which are fully recovered from the WBCG), and managing the employment agreements/relationships with the two staff members. The activity is fully funded by the participating councils, and operates as a separate cost centre. The activity transferred to WLASS on 1 July 2016.

- 5 Future Proof.** This is a collaborative partnership between Hamilton City, Waikato and Waipa Districts, Waikato Regional Council and Tāngata whenua, with assistance from the New Zealand Transport Agency. The partners have jointly developed the Future Proof Growth Strategy and Implementation Plan – a 50-year vision and implementation plan specific to the Hamilton, Waipa and Waikato sub-region (Future Proof sub-region), which was adopted by the partners on 30 June 2009.

The accommodation, overhead and employment arrangements of the Future Proof Planner are managed by Hamilton City Council. This activity is fully funded by the participating councils, and operates as a separate cost centre. Future Proof transferred to WLASS on 1 July 2016.

- 6 Energy Management.** WLASS entered into a Collaboration Agreement with the Energy Efficiency Conservation Authority (EECA) in February 2016. This arrangement will bring up to \$210,000 in revenue from EECA over three years, subject to meeting specific energy saving targets. The activity is fully funded by the eleven participating councils (Matamata Piako is not eligible, as it has previously received EECA funding), and operates as a separate cost centre.

- 7 Joint Procurement Initiatives.** WLASS is a party to numerous joint procurement contracts between the company, shareholding Councils and suppliers. Some contracts (e.g. insurance brokerage services; various collective insurance policies; courier and postal services; historic aerial photography) involve all of the shareholding councils. Other joint procurement contracts have been negotiated, but only some of the shareholding councils have chosen to participate (e.g. the Professional Services Panel; computer-generated print, mail house and e-services; IT Professional Services Panel; Internal Audit Services). A review of procurement opportunities, which is currently in progress, will assist in determining the future direction of WLASS procurement activities.

- 8 Historic Aerial Photos.** In May 2015, WLASS entered into a Memorandum of Understanding with LINZ to scan the Waikato Historic Aerial Photos archive. The LINZ Crown archive contains over 500,000 historic aerial photo negatives captured by surveys flown over New Zealand between 1936 and 2005. All of the shareholding councils are participating in this 4-year project, which includes a subsidy of \$56,000 from LINZ. The project is running ahead of schedule and is now expected to be completed in 2018.

- 9 Waikato Regional Aerial Photography Service (WRAPS).** WRAPS was set up in the 1990s for the supply of colour, digital, ortho-rectified, aerial photography for the Waikato Region. So far, there have been four WRAPS contracts – 2002, 2007, 2012, and the 2016 contract that is currently in progress. Consideration is currently being given to changing the frequency of coverage to 4-yearly. WRAPS became a WLASS project in December 2014 and is fully funded by the participating councils.

Proposed New Activities

New Business Transformation Initiatives

In response to the challenge set in the 2016/17 SOI (to “investigate business transformation opportunities which will improve customer experiences and provide added value, particularly within the digital field of operation”), a number of projects commenced in the 2016/17 financial year which are likely to result in new work streams for WLASS.

The projects currently being investigated are:

Procurement

A contract has been let to undertake a "health check/maturity assessment" of procurement activities and processes in the WLASS councils, and to identify opportunities and/or alternative approaches that could be taken to provide greater value to shareholders. The outcome of this work will be known in August 2017.

Aligned Planning

One of the outputs from the Waikato Plan was a report completed by GMD Consulting Ltd, which identified a range of methods by which councils can achieve greater efficiencies and effectiveness in the processing of resource consents. Following the completion of a business case for consideration by the Board, new funding of \$75,000 to implement this project has been included in this SOI. All councils are participating, except for Otorohanga and Taupo Districts.

GIS

Geographic Information Systems (GIS) in the Waikato region are characterised by a wide range of systems and software and are at varying levels of maturity. As a sector, Territorial Authorities are challenged with rapidly developing technology, an ever increasing requirement for skills, competition for skilled and knowledgeable staff, and a greater need to keep ahead of citizen requirements. Other regions face the same challenges and have responded in various ways. An investigation is underway into the progress being achieved by other GIS regional initiatives, to identify the benefits of different delivery models and their applicability to the Waikato. New collaborative initiatives will be identified, prioritised and business cases developed for those with significant benefits.

Work is also in progress to identify how spatial information systems can support the Waikato region within the framework of the Waikato Digital Strategy (see below) and contribute to the WLASS digital strategic direction setting from a spatial and analytical perspective.

Building

The Waikato Building Consent Group (WBCG) has reached a level of maturity within their current framework, but it is evident that there are opportunities to go a lot further. A strategic visioning workshop has been undertaken by the WBCG and the CEOs of the participating councils, to develop a long-term vision (10 years), and to consider alternative service delivery options to achieve that vision. Proposals arising from this exercise will then be considered by the Board.

Digital Strategy

Work is in progress to define the scope for the development of a WLASS Digital Strategy, what the challenges are, what success would look like, and to make recommendations to the Board on the next steps.

Additional Costs

Due to the increased workload arising from the growth of WLASS (turnover in 2014/15 was \$2.1M, compared with an estimated \$3.5M in 2017/18), additional funding of \$20,500 is required to fund accounting services. This equates to 2% of total revenue, the same percentage as in 2014/15.

In addition, it is proposed to replace the current accounting package (MoneyWorks) with a new system, such as Xero, which will be more efficient in dealing with the increased complexity of the WLASS accounts. The likely additional cost for a licence is approximately \$850 p.a.

The Mayoral Forum (Policy and Bylaws work stream) project to publish a Regional Infrastructure Technical Specifications (RITS) document (a regional guide on how to construct public infrastructure) is expected to be completed in July 2017. New funding of \$18,000 p.a. has been included in the Procurement cost centre from Year 2 to fund a contractor to manage and review requests for changes/improvements/updates to the document, and to manage the process for including new approved products into the RITS, to keep it up-to-date. These costs will be funded solely by those councils using RITS (currently all of the shareholding councils, except Taupo and Thames Coromandel Districts, and Waikato Regional).

Waikato Mayoral Forum

Establishment of the **Waikato Mayoral Forum** in 2012 resulted in the creation of five work streams to investigate collaborative opportunities in the areas of governance, spatial planning, two waters, roading, and economic development. An additional work stream for bylaws and policies was created in 2013, focussing on reducing the number and standardising the format of Council policies and bylaws, and developing RITS.

The governance work stream is currently in abeyance. The spatial plan work stream is now known as the Waikato Plan, and is governed by a Joint Committee, which was established in July 2015. New funding to implement the Waikato Plan over the coming three years has been included, noting that funding from external parties is expected to contribute to the cost of this project in Years 2 and 3.

The two-waters project is now being run by a consortium comprising Hamilton City, Waikato and Waipa District Councils, who are investigating a future delivery model for water services across the three councils. As noted above, the roading work stream (RATA) transferred into WLASS on 1 July 2016. The Economic Development work stream has developed a strategy, and implementation of the "Waikato Means Business" plan was devolved to an independent Steering Group in July 2015. The work of the Policy and Bylaws work stream is ongoing.

The Mayoral Forum are considering potential new work streams for the new triennium, and there may be a further role for WLASS, which already provides administrative and financial support both to the Mayoral Forum and its work streams. A review of Future Regional Strategic Collaboration Opportunities is currently underway, which may identify new initiatives.

Benefits of WLASS

Over the period that the company has been operating, benefits have been delivered in the form of:

- Improved level and quality of service
- Co-ordinated approach to the provision of services
- Reductions in the cost of services
- Development of new initiatives
- Opportunities for all Councils (irrespective of their location or size) to benefit from joint initiatives
- Economies of scale resulting from a single entity representing all Councils and leveraging procurement opportunities.

Based on feedback from the shareholding Councils and the Mayoral Forum, the WLASS Directors continue to discuss opportunities to develop shared services at Board meetings. The Directors see the continuing investigation of possible future shared services as a key focus of their role.

Governance

WLASS has twelve Directors, with each Director representing a shareholder Council.

Unless otherwise agreed by the appointing Councils, each Director shall be the Chief Executive of a local authority. In addition, the Board may appoint up to three professional directors to supplement the Directors' expertise. At this time, no independent directors have been appointed to the Board.

WLASS conducts itself in accordance with its constitution, its annual Statement of Intent as agreed with shareholders, the provisions of the Local Government Act 2002, and WLASS policies.

Directors

The current Directors of WLASS are:

Director	Position	Director Appointed By
Gavin Ion (Chair)	Chief Executive, Waikato District Council	Waikato District Council
Blair Bowcott ¹	Executive Director, Special Projects, Hamilton City Council	Hamilton City Council
Langley Cavers	Chief Executive, Hauraki District Council	Hauraki District Council
Don McLeod	Chief Executive, Matamata-Piako District Council	Matamata-Piako District Council
Dave Clibbery	Chief Executive, Otorohanga District Council	Otorohanga District Council
Geoffrey Williams	Chief Executive, Rotorua District Council	Rotorua District Council
Craig Hobbs	Chief Executive, South Waikato District Council	South Waikato District Council
Gareth Green	Chief Executive, Taupo District Council	Taupo District Council

Rob Williams	Chief Executive, Thames-Coromandel District Council	Thames-Coromandel District Council
Vaughan Payne	Chief Executive, Waikato Regional Council	Waikato Regional Council
Garry Dyet	Chief Executive, Waipa District Council	Waipa District Council
Chris Ryan	Chief Executive, Waitomo District Council	Waitomo District Council

¹Blair Bowcott was appointed by Hamilton City Council to replace Richard Briggs as the Hamilton City Council representative, effective from 24 March 2017.

Activities for which the Board seeks Compensation

Additional shared services may be developed during the year that this Statement of Intent is current. Any such services will only be delivered by WLASS after the Directors have agreed that the proposed new service meets the objectives of WLASS.

Shareholders will continue to contribute to the operational costs of the WLASS on an annual basis. Specific projects will be funded solely by those councils which choose to participate, subject to funding approval from each participating council.

Performance Targets

To ensure that the Company continues to operate effectively and efficiently, the performance targets for 2017/18 are as follows:

TARGET	METHOD	MEASURE
Procurement Joint procurement initiatives for goods and services for WLASS councils will be investigated and implemented.	Procurement is from sources offering best value, service, continuity of supply, and/or opportunities for integration.	Implement the recommendations of the Procurement review, as approved by the Board. New suppliers are awarded contracts through a competitive tender process.
Collaborative Projects Priorities for collaboration are identified, business cases are developed for the highest priority projects, and the projects are implemented.	The focus is on shared services which will benefit all councils.	A minimum of three priority projects for collaboration are identified per annum. If considered of value, business cases are developed for approval by the Board, and the projects are implemented.
Existing WLASS Contracts Existing contracts are managed and renegotiated as required.	Appointed vendors deliver on the terms of their contracts and deliver value to the shareholders.	The WLASS Contracts Register is maintained and managed. Contracts which are due for renewal are tested for competitiveness and either renegotiated or re-tendered through a competitive process.
Cashflow The company shall maintain a positive cashflow position.	The Financial Accountant reviews cashflow monthly.	The WLASS Board reviews the financial statements quarterly.

<p>Cost Control Administration expenditure shall be managed and monitored.</p>	<p>The Financial Accountant and Chief Executive review expenditure monthly.</p> <p>The WLASS Board reviews the financial statements quarterly.</p>	<p>Administration expenditure shall not exceed budget by more than 5%, unless prior approval is obtained from the Board.</p>
<p>Reporting Six monthly reports provided to Shareholders.</p>	<p>The Chief Executive prepares a written report for the WLASS Board every meeting.</p> <p>One 6-monthly and one Annual Report are prepared for shareholders.</p>	<p>The Board shall provide a written report on the business operations and financial position of WLASS to the shareholders every six months.</p> <p>Every second report shall be the Annual Report, which includes a report that all of the statutory requirements of the WLASS are being adhered to.</p>
<p>Waikato Mayoral Forum The company shall provide administrative support to the Mayoral Forum work streams and to the Mayoral Forum.</p>	<p>Mayoral Forum projects shall be managed financially through the WLASS.</p>	<p>Approved invoices for Mayoral Forum projects are paid by the 20th of the month following their receipt.</p>
<p>Shared Valuation Data Services (SVDS) The SVDS is reliable, well maintained and available to all users.</p>	<p>A Contract Manager is appointed for SVDS.</p> <p>The Contract Manager monitors performance of the contractors and reports quarterly to the SVDS Advisory Group.</p>	<p>The SVDS is available to users at least 99% of normal working hours.</p> <p>All capital enhancement work is supported by a business case and approved by the SVDS Advisory Group.</p> <p>The SVDS Advisory Group meets at least 6-monthly.</p>
<p>Insurance Achieve the relevant KPIs in Appendix 4 of the Insurance Brokerage contract with Aon.</p>	<p>The Insurance Broker delivers on the terms of their contract and provides value to the participating councils.</p>	<p>Strategic advice provided by Aon on the insurance programme structure is assessed as satisfactory in the annual WLASS Shareholders' survey by the participating councils.</p> <p>The day-to-day service provided by Aon is assessed as satisfactory in the annual WLASS Shareholders' survey by the participating councils.</p>
<p>RATA¹ All stakeholders are kept informed about RATA's projects and achievements.</p>	<p>Six monthly and annual reports are provided to all stakeholders.</p> <p>Annual Forward Works</p>	<p>Reports presented to WLASS Board as at 30 December and 30 June, and circulated to stakeholders.</p> <p>Reports include a summary of savings and achievements.</p> <p>All RATA councils participate in</p>

<p>Sub-regional data collection contracts deliver good quality data on roading assets.</p>	<p>Programme tours are completed, to provide opportunities for councils' roading staff to share their knowledge and experience</p> <p>Data collection contracts (minimum of two across the region) are managed in accordance with best practice.</p> <p>Data supplied by contractors is of good quality and meets all councils' requirements.</p>	<p>the tour.</p> <p>Report on tour outcomes prepared by 31 December each year, and circulated to stakeholders.</p> <p>Contracts which are due for renewal are tested for competitiveness and either renegotiated or tendered through a competitive process.</p> <p>Any data issues are identified and resolved, with any incidents reported to stakeholders.</p>
<p>Waikato Regional Transport Model (WRTM) The WRTM is reliable, well maintained and available to all users.</p>	<p>RATA manages the WRTM on behalf of the participating councils, and monitors the performance of the model supplier (currently Traffic Design Group).</p> <p>RATA reports quarterly to the WRTM Project Advisory Group.</p>	<p>All modelling reports requested from the model supplier are actioned within the agreed timeframe, scope and budget.</p> <p>A report from RATA on any new developments and on the status of the model is provided to the WLASS Board at least every six months.</p> <p>The quality of the base model complies with NZTA guidelines (as set out in the NZTA's Economic Evaluation Manual), and is independently peer reviewed each time the model is updated.</p>
<p>Waikato Building Consent Group Provide strategic direction and actively pursue improvements in Building Control across the Waikato region.</p>	<p>Develop and maintain a quality assurance system for building consents, that meets statutory compliance and supports excellence and consistency in customer service and business practice.</p>	<p>Internal audits are completed annually for each Group member.</p> <p>Group members are provided with a joint quality assurance system that meets statutory compliance.</p> <p>Report at least six monthly to the WLASS Board on the Group's activities.</p>
<p>Future Proof All stakeholders are kept informed about Future Proof's projects and achievements.</p>	<p>Six monthly and annual reports are provided to all stakeholders.</p>	<p>Reports presented to WLASS Board as at 30 December and 30 June, and circulated to stakeholders.</p>
<p>Shareholder Survey Shareholders are satisfied with the performance of WLASS.</p>	<p>An annual survey of shareholders is undertaken to assess satisfaction levels with</p>	<p>A survey of shareholders is undertaken each year, and the results are reported to all</p>

	WLASS.	shareholders.
Review of Benefits Shareholders are informed of the benefits being provided to shareholding councils by WLASS.	The benefits of WLASS (including financial and non-financial achievements) are regularly analysed and reported to shareholders.	Information on the financial and non-financial benefits being achieved by WLASS are included in the 6-monthly and Annual Report to shareholders. The “Collaboration in Action” document, which summarises the achievements of WLASS, is updated and circulated to shareholders by 31 December 2017.

¹ The performance measures for RATA are currently under review.

Policy Statements

Statement of Accounting Principles

Financial statements are for a company wholly owned by the 12 local authorities within the Waikato Region, in the proportion of one share per local authority. Financial statements are prepared in accordance with the requirements of the Local Government Act 2002, which includes the requirement to comply with the New Zealand Generally Accepted Accounting Practice (NZ GAAP), the Financial Reporting Act 1993 and the NZ Financial Reporting Standard No. 42.

Specific Accounting Principles

The following particular principles, which have a significant effect on measurement of the financial position, will apply:

- Receivables are recorded at their face value, less any provisions for impairment.
- Investments are valued at the prevailing market value.
- Fixed assets are recorded at cost, less accumulated depreciation.

Intangible Assets

Where intangible assets are purchased, such as intellectual property and computer software, these are capitalised and written off on a straight line basis over their expected life, but over no greater than seven years.

Depreciation / Amortisation is provided on a straight-line basis on all assets other than land, and shall align with normal accepted depreciation for the types of services being developed.

Impairment Testing

Assets with a finite life are reviewed annually for impairment whenever events or changes in circumstances indicate that the carrying amount may not be recoverable. An impairment loss is recognised for the amount by which the asset's carrying amount exceeds its recoverable amount. The recoverable amount is the higher of an asset's fair value less costs to sell and value in use.

Balance Sheet Ratios

The Local Government Act 2002 requires the Statement of Intent to include the projected ratio of shareholders' funds to total assets within the Forecast Statement of Financial Position.

WLASS is budgeted to have an accumulated shareholders fund of \$435,903 at 30 June 2018, which relates to 55.6% of total assets. The only liabilities of WLASS are trade creditors.

The Forecast Financial Statements for 2017/18 are included as part of this Statement of Intent.

Procedures for the Purchase and Acquisition of Shares

The Board will give approval before WLASS subscribes for, purchases, or otherwise acquires shares in any company or other organisation, which is external to the Group.

Inventories

It is not envisaged that the company will hold inventories, other than those that might relate to providing computer-based services to a number of parties. They will be valued at net realisable value.

Taxation

Taxation will be provided as required against the company, in line with the required legislation.

In accordance with the Public Audit Act 2001 and the Local Government Act 2002, the Auditor General will be responsible for the audit of the company's financial statements.

As the current shared services are on a cost recovery basis, it is not envisaged that any dividends will be paid.

Value of Shareholders' Investment

The Directors' estimate of the commercial value of the shareholders' investment in WLASS is equal to the shareholders equity in the company. Reassessment of the value of this shareholding shall be undertaken on or about 1 April each year.

Distributions to Shareholders

The Company is not expected to make profits that would ordinarily be distributed by way of dividends. Any surplus funds remaining from an activity or from the annual operations of the Company shall be carried forward to the ensuing year and may be used to reduce service costs, invest in further developing other services, and/or as the Directors may decide.

Compensation

The Directors of WLASS will not receive any fees or expenses for work undertaken on behalf of the company.

As the basis of funding for WLASS, payment will be sought from all local authorities that receive services from WLASS.

Information Provided to Shareholders

The company will deliver the following information to shareholders:

- Within two months of the end of the first half of the financial year, a 6-monthly report, including a Statement of Financial Performance, a Statement of Changes in Equity, a Statement of Financial Position, and a Statement of Cashflows and Service Performance.
- Within three months of the end of the financial year, an audited Statement of Financial Performance, Statement of Changes in Equity, Statement of Financial Position, a Statement of Cashflows and Service Performance, plus a summary of how the company has fared against its objectives.

Review of Statement of Intent

The Directors shall approve by 1 March of each year a Draft Statement of Intent for distribution to, and consideration by, the shareholders.

The shareholders must provide any comments or feedback on the Draft Statement of Intent within two months of 1 March. The Directors must consider all comments that are received, and shall deliver the completed Statement of Intent to the shareholders by 30 June.
