

Rates Remission and Postponement Policies 2021

General Considerations

When considering any remission, the circumstances at the time the rates are set will be taken into consideration. Annual Rates less than \$1,500 in total may be fully or partially remitted on rating units that don't meet the conditions and criteria of 1 – 9 below to qualify for a rates remission, and the Head of Finance and Strategy considers that the unique characteristics in relation to the rating unit, (not the ratepayers) warrant a remission.

This policy is aimed at aiding those ratepayers whose homes are most adversely affected.

8.2 Conditions and Criteria

- 8.2.1 The Council may remit all or part of any rate assessed in the district in respect of rating units that are used as a place of residence and not used in a commercial capacity or derive income, if the land beneath or surrounding the home is detrimentally affected by natural disaster (such as erosion, falling debris, subsidence, slippage, inundation –*deluge/flood/torrent*, or earthquake) and

9. Waitahanui - Fixed Charge Targeted Water Rate Remission Policy

9.1 Policy Objectives

- The objectives sought to be achieved by the remission of rates are:

- To take into consideration that the infrastructure to extend the Taupō Township/Wairakei Village water supply to Waitahanui qualified for \$1.9m funding through the Central Government's New Zealand Drinking standards programme.
- To recognise that Central Government's criteria to qualify for funding is decided by a measure on New Zealand's deprivation index.

- will cease to apply with respect to a rating unit from 1 July in any rating year if, in the previous rating year, that rating unit connected to the Taupō Township/Wairakei Village water supply.
