## **HERBICIDE SPRAYING IN TAUPŌ DISTRICT**

Taupō District Council will be applying herbicide to control weeds on sports grounds, parks and reserves around the district from now to the end of April 2021.

The spraying will take place when weather conditions allow and will happen between 6am and 3pm on weekdays.

The herbicides used will be either Archer 750 (active ingredient Clopyralid), Agritone 750 (active ingredient MCPA as dimethylamine salt) or Quantum (active ingredient diflufenican).

Signs will be erected when an area is being sprayed to alert the community. Please avoid these areas while this work is being carried out and keep off the areas sprayed until the grass has dried.
