Submission

The specific parts of the application that my submission relates to are: the subdivision of the land into lot sizes that are currently less than the minimum for Kinloch low density sections.

My submission is: In support of the application or specific parts of it

Please detail the reasons for making your submission: Kinloch is a rapidly growing village where there is demand for residential property. Seven Oaks is a very community minded developer, always consulting with the community and a generous history investing in community projects. They have a record of creating high quality developments with attention to the creation of pleasant community environments and social spaces for the residential lots as shown by previous investment in extensive planting and provision of walkways within the subdivisions and connection to adjoining ones. This subdivision will be good for the community of Kinloch providing well planned and well executed area for growth. The inevitable increase in population for Kinloch village needs to be planned for in subdivisions such as this where the developer has listened to the concerns of the residents and has accommodated the application accordingly. This will be a very positive development for the future of Kinloch creating residential space of practical sizes in an area of land which naturally joins two already existing subdivisions. Seven Oaks has a track record of exceptionally high quality developments so can be trusted to deliver a new subdivision which will be welcomed by the community.
