

Taupō District Council  
Taupō Ward  
Electing 7 Councillors

---

**David FREEMAN**

My principal place of residence is in the Taupō Ward area.

I have had a colourful life so far. I started work as an 11 year old with racehorses which is still a passion. I served 20 years in the Army and did a stint in Afghanistan as a Provincial Logistics

Coordinator.

I stood for the Act party at the last general election as I did not like the direction the Government was taking.

I am standing for Council as I do not like the direction the current council is taking.

The current council is not listening to the residents and in my opinion are pushing ahead with agendas that most of us do not agree with.

There are going to be some tough issues for the new council to face which will require Councillors to not only listen but actually hear what the community is saying.

The only agenda I have is to do the best for Taupō.
